

Paperless HACCP temperature monitoring

The **HACCP Touch HT100** is an easy and cost-effective system for collecting, recording and storing daily temperatures of critical items in receiving, storage, prep, cooking and holding, as well as many of the other checklists you've been filling out by hand.

- Easy and cost-effective system for collecting, recording and storing daily temperatures
- Paperless records and tamper-proof data
- Critical Control Points are monitored with programmed corrective actions
- Record HACCP temperatures and other checks
- Download to Microsoft Excel™ for reports
